Classical music in Kindergarden for refugee children

Dear Mr. Magnongui

You made it possible that Ms Martina Henzi came from the Astor Aarauer Students Orchestra on February 18, 2015 in the Kindergarden. Sie played beautiful music with her harp and obviously touched the hearts of these children. At the same time as she played music, where these children drawing pictures in a very relaxed way.

After that each child got a harmonica, played with it spontaneously and Martina Henzi continued to play on her harp. Even she stopped once playing, these children kept on enjoying her instruments.

This experience was a great example to see how wonderful is the impact of classical music on the children!

Thank you very much on behalf of all these refugee children for this uplifting music session.

Kind regards

Jürg Forster
